DETAILED ACTION

Allowable Subject Matter

Claims 4,8-13 are allowed.

Claim Rejections - 35 USC § 103

Claims 14,17,18 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA in view of DeVries. See the previous office action for this rejection.

Response to Arguments

Applicant's arguments filed 10/20/06 concerning the above rejection have been fully considered but they are not persuasive. DeVries liquid is used to help control the duct problem. Since DeVries apparatus is a shredding mechanism , it is analogous art and there is no reason why the teachings of DeVries cannot be combined with APA which also includes a shredder. Furthermore, not being a mobile shredder (APA including a mobile shredder) does not render DeVries as non-analogous art since as noted above it is a shredder.
